SBC to Base Plant shuttle cancelled – Feb. 1

Effective Wednesday, February 1, the shuttle service between the Suncor Business Centre (SBC) and Base Plant site will be cancelled due to low ridership. This change is part of Suncor's cost management strategy.

We encourage you to make use of the technology available for any meetings where possible, such as teleconferencing, Lync and video conferencing. If you have meetings at Base Plant, we recommend you use the town to Base Plant coach service and set up at a hoteling station for the day, or collaborate with teams who have access to Suncor fleet vehicles to set up car sharing to help accommodate when possible. Please discuss these options with your leader.

Contact groundtransportation@suncor.com or 780-742-5416 with any questions about this change.
