

On-Site Busing schedule update

Please be advised that effective **Tuesday, July 1st** our onsite busing provider will be changing from Fort McKay Alcor to Golden Arrow. We will also have a bus type change, from yellow to white industrial buses with coach-style seating and air conditioning on all buses.

The scheduled service hours will remain the same, with one key change: all routes will now operate on a frequency-based model from start to finish. This means passengers will be able to board buses and travel in any direction during service hours.

Scan the QR Code with your phone's camera to find all Mildred Lake busing schedules, or
